

RUPALI RAWAT

Full Stack Developer (MERN Stack)

rupalirawat292@gmail.com | [linkedin.com/in/rupali-rawat](https://www.linkedin.com/in/rupali-rawat) | github.com/rupalirawat1229 | Ranchi, Jharkhand
(Open to Relocate)

Professional Summary

Final-year BCA student specializing in Full Stack Development (MERN). Experienced in designing and building responsive, scalable web applications end-to-end — from database schema to deployed UI — with working knowledge of RESTful API design, relational databases, and DevOps fundamentals. Comfortable with Python for data analysis and automation. Quick learner with strong communication skills, an analytical mindset, and a track record of shipping complete projects independently. Seeking full-time or training roles in software development.

Technical Skills

Languages: C, C++, Java, Python, JavaScript

Full Stack / MERN: HTML5, CSS3, React.js, Node.js, Express.js, MongoDB

Databases: MySQL, MongoDB

Tools & DevOps: Git, GitHub, Docker, REST APIs

Python Libraries: NumPy, Pandas, Matplotlib

Other: SEO Basics, Content Strategy, Data Visualization

Projects

E-Commerce Platform — Full Stack Web Application

MERN Stack · MySQL · Git & GitHub

- Built a complete full stack e-commerce application end-to-end, from database design to a deployed, production-style UI, using MongoDB, Express.js, React.js, and Node.js.
- Designed and implemented RESTful APIs with Node.js and Express.js, connected to MongoDB for scalable backend data operations.
- Developed a fully responsive React.js frontend delivering a consistent user experience across mobile and desktop.
- Used MySQL for structured data management and Git/GitHub for version control and collaborative development.

Education

Bachelor of Computer Applications (BCA)

YBN University — 2023 – 2026 (Final Year)

- Relevant coursework: Full Stack Web Development (MERN), Data Structures & Algorithms (C/C++/Java), Database Management Systems (MySQL), Python Programming & Data Libraries, DevOps Fundamentals (Docker & Git), Software Engineering & System Design.

Core Strengths

- Strong communication and presentation skills
- Analytical and data-driven thinking
- DevOps mindset — focus on automation and efficiency
- Team collaboration and cross-functional work
- Fast learner, quick to adapt to new tools and technologies

Interests

- Content creation — social media strategy, audience engagement, and brand storytelling
- Data analytics — exploring datasets and building visualizations with Pandas and Matplotlib
- AI tools — using tools like ChatGPT, Canva AI, and Gemini to automate workflows and boost productivity
